

Cozi270

Cozi270 from IMI Cornelius, (formerly known as the Breakfast) is an automatic hot drinks dispenser which prepares instant coffee, cappuccino, milk, hot chocolate and any other kind of drink which needs to be served hot.

Despite its small size, the Cozi270 has excellent drinks capacity as it can be connected directly to the water mains. It is also fitted with four containers for drinks powders which means it can dispense a wide range of delicious hot beverages.

The unit dispenses the chosen drink one cup at a time which guarantees maximum hygiene levels and minimum wastage.

Key features include:

- Electronic programming and calibrated powder dosing system guarantees top beverage quality
- 8 Litre boiler with electronic temperature and level management
- Jug option - a jug of the product can be dispensed if necessary
- Maximum hygiene - all the parts that come into contact with the drinks powders are easy to remove and clean

Size and capacity:
